

WYBLYK

CABLES BIPOLAIRES SOUPLES

80 V

FLEXIBLE BIPOLAR CABLES

Température maxi au conducteur : 70°C

Maximum conductor temperature : 70°C

<p>1 -Ame Cuivre nu Souple - IEC 60228 classe 5/6</p> <p>2 -Isolation Thermoplastique</p> <p>Assemblage parallèle côte à côte</p> <p>3 -Gaine extérieure PVC - transparent</p>		<p>1 -Conductor Bare copper Flexible - IEC 60228 Class 5/6</p> <p>2 -Insulation Thermoplast</p> <p>Cores parallel side by side</p> <p>3 -Outer sheath PVC - transparent</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

• Tension maxi d'utilisation : 80V

• Max. operating voltage : 80V

• Rayon de courbure

$$\Rightarrow \rho = 10 \times \varnothing.$$

• Bending radius

$$\Rightarrow \rho = 10 \times \varnothing.$$
